

Is your business really in the digital age? Are you taking advantage of all the time and money-saving advantages of the technology currently available to you?

As an INFONETICS customer you should know that you have access to tools that can make document delivery easier and more efficient than ever before. Both INFOFax and INFOMail provide a seamless method of delivery of any document the INFONETICS system produces to any fax machine or email in-box with just a few clicks or keystrokes saving you time and money.

Save time, consumables & money:

- Reduce monthly postage expenses as much as half by sending invoices, rent bills and statements electronically
- Cut your manpower dedicated to daily and monthly routines by reducing the time spent printing, folding, stuffing, stamping and traveling to the post office to have your invoices and statements mailed to your customers - time that could be redirected to other projects
- Stop spending hundreds of dollars per year on paper, forms & envelopes
- Save on printer consumables and wear & tear
- Used with iWrite signature capture, retrieved signed shipper/delivery tickets can be printed or emailed without a visit to the filing cabinet
- With INFOPad your driver can email the signed delivery ticket right from the customer's dock
- Sophisticated search tools find the requested document for you to print or email without leaving your desk
- Fax or email invoices or statements in a batch to only your pre-set customers or on demand as you see fit
- Transmitted images are identical to those printed in store

Case study -

Wilson Supply Company, Cumberland, MD

In one calendar year this busy one-store operation saved over \$15k in postage by delivering over 30,000 invoices (about half their total invoices) electronically using INFOMail and INFOFax! A further \$1400 was saved in paper and envelopes not to mention printer consumables and countless hours of inefficient paper handling by their staff.
